Subject: Re: EPA Talking Points on Roxul

I can imagine!

Just call me at Personal Matters / Ex. 6 when you are ready to talk.

Mark –

I need to run out for 10 minutes – and clear my head.

I can share with you what I heard Jenifer say she would like for you to say if asked in tomorrow's meeting – if you want to talk before 1 p.m. – Thanks.

Joan

A useful tick-tock of how the process unfolded. The EJ screen may help clarify some of the proximity issues the protestors have raised in their complaints? Also I'd advocate releasing the letters exchanged between EPA and DEP that involve our pre-construction permit comments.

Also, the (protesting) public will want to know 1) the details of BACT designation and how they are determined, what 'force of law' they may have, and 2) what is the best mechanism for the public to monitor and ensure BACT compliance (assuming they accept the validity of BACT protections.).

Subject: EPA Talking Points on Roxul

Attached please find the talking points on Roxul. Also, included in the document is an issue paper with more background information and our comments and WVDEQ's responses on the permit.

Please, let me know if you would like us to edit the document in any way or if you have any questions.

Thanks, Cristina
